**Subject: Parcel A Remedial Action Closure Report
Former Gorham Facility
333 Adelaide Avenue, Providence, Rhode Island
Amec Foster Wheeler Project No. 3651170068**

Dear Mr. Martella:

On behalf of Textron, Inc., Wood Environment & Infrastructure Solutions, Inc. (Wood; formerly Amec Foster Wheeler), please find enclosed the Remedial Action Closure Report (RACR) for Parcel A (the "Site") of the Former Gorham Manufacturing Facility located at 333 Adelaide Avenue, Providence, Rhode Island.

The Parcel A Closure Report provides a history of the Site, a comprehensive summary of environmental response actions completed at the Site since the late 1980's, a summary of current conditions, and a description of proposed long-term remedial and monitoring actions to meet and maintain compliance with Site remediation goals.

With the submittal of this RACR, Textron is requesting an **Interim Letter of Compliance** or equivalent correspondence from RIDEM documenting the satisfactory completion of the major components of the remedy and interim closure of Parcel A.

We look forward to your review and approval of this closure report. We will contact you shortly to request a meeting to discuss the report, site closure, and any questions or comments you may have. We also request at this time an update on the Department's review of the Parcel C Closure Report, submitted to RIDEM on May 4, 2017.

If you have any questions regarding this matter, please feel free to call Herb Colby (978/392-5312) or Timothy Regan (401/648-9241).

Sincerely,

Wood Environment & Infrastructure Solutions, Inc.

Herb Colby, PG
Sr. Project Manager

Tim Regan, PE
Client Manager/Principal Engineer
